Errors and science myths in K 6 Science Textbooks

I know that most men including those at ease with problems of the greatest complexity can seldom accept even the simplest and most obvious truth if it be such as would oblige them to admit the falsity of conclusions which they have delighted in explaining to colleagues which they have proudly taught to others and which they have woven thread by thread into the fabric of their lives

Science Wikipedia

Science in a broad sense existed before the modern era and in many historical civilizations Modern science is distinct in its approach and successful in its results so it now defines what science is in the strictest sense of the term Science in its original sense was a word for a type of knowledge rather than a specialized word for the pursuit of such knowledge In particular it was the
