History of statistics Wikipedia

The history of statistics in the modern sense originates from the term statistics coined in 1749 in Germany Although there have been changes to the interpretation of the word over time The development of statistics is intimately connected on the one hand with the development of sovereign states particularly European states following the Peace of Westphalia 1648 and the other hand with

Inductive reasoning Wikipedia

Inductive reasoning is a method of reasoning in which the premises are viewed as supplying some evidence for the truth of the conclusion this is in contrast to deductive reasoning While the conclusion of a deductive argument is certain the truth of the conclusion of an inductive argument may be probable based upon the evidence given Many dictionaries define inductive reasoning as the
